Enedril

DIRECTIONAL DRILLING

High-precision trajectories for complex wells.

Motors, RSS and MWD, with in-house well planning.

3-1/8" to 9-5/8"

PDM motors, high-temperature power sections

RSS

push-the-bit and point-the-bit

up to 200°C

MWD kits with HT electronics

Innova · DrillScan

torque and drag, hydraulics, anti-collision

ALSO: survey equipment (LWD, gyro), turbodrilling, jar placement, non-magnetic equipment, slimhole tools 3-1/2".
